DESCRIPTION

The RP1 - special plastic fish tape Ø 4 mm with the RG6 guiding head the tip and a detachable eyelet head at the end, is a favourable variant to the RP5. Perfectly suited for small pipe dimensions and shorter sections. The RG6 guiding head with large eyelet hole, the high total breaking load of 170 kg and the bending radius of 15 mm make the RP1 a pull-in tool which is far ahead of conventional nylon straps.

Optimal application area: for pipe inner diameter Ø 9 mm - 25 mm
